Diesel fuel savings with Envirox

24.08.2007

Dear Sir/Madam,

I am pleased to confirm that our bus company has been using your products (EPP/Envirox) since the beginning of the year in order to reduce diesel fuel consumption.

Despite initial problems with the EPP product, where we observed no reduction in consumption, since changing to Envirox, we have achieved savings of over 6%.

I am very satisfied with the results and am happy to act as a referee on telephone number +49 2428 1516.

I wish you and your products continuing success.

Kind regards

[signature]

Robert Collas
Director
